spiritual writer theologian and philosopher fr robert spitzer s j tackles the topic of recognizing and overcoming spiritual evil his focus is the human heart his goal our spiritual and moral transformation which leads to true peace and genuine happiness the book is divided into two main parts 1 the realities of god s goodness and of spiritual evil and 2 recognizing and overcoming the diabolical tactics of deception temptation and sin the author synthesizes the best advice given by catholic spiritual masters throughout the ages and gives a practical guide to implementing it in our busy lives father spitzer provides the biblical and theological background of jesus victory over evil he also explores the reality of the devil including extraordinary manifestations of diabolic activity such as possession with insights from modern psychology he shows how prayer can transform the subconscious psyche making us better able to resist temptation detach from the world and grow in holiness

spiritual writer theologian and philosopher jesuit fr robert spitzer tackles the topic of recognizing and overcoming spiritual evil his focus is the human heart his goal our moral and spiritual

transformation which leads to true peace and genuine happiness the book is divided into two main parts the realities of god s goodness and of spiritual evil and recognizing and overcoming diabolical tactics which range from temptation and deception to the deadly sins father spitzer shows readers how to experience god s peace even during times of suffering and persecution he examines the basics of the spiritual life and christian mysticism including the contemplative dimension he explains the purgative illuminative and unitive aspects of spirituality as well as the lord s consolation and the passive dark night of the spirit father spitzer provides the biblical and theological background of jesus victory over satan the author also explores the reality of the devil including extraordinary manifestations of diabolic activity such as possession he recalls the true story of the famous possession case on which the novel and film the exorcist were based in the final sections of the book the author explains how diabolical spiritual forces operate how temptation works and what to do to defeat it the deadly sins and how to overcome them

drawing from the fields of evolutionary neuroscience psychology and theology sandra levy achtemeier considers what it might mean for humans as embodied and spiritual selves to flourish now and how such flourishing can contribute to our final flourishing in the time to come she shows how such holistic flourishing and growth filled transformation can occur even and perhaps especially in times of darkness and struggle in this engaging work she makes complex ideas accessible to all who hunger for deeper spiritual growth over the course of their lives this book is not only highly readable but it is also a practical guide to the flourishing life providing resources for embodied practices from prayer to dance to storytelling which can enhance our human flourishing now in short she lays out a complete picture of human flourishing from our evolutionary roots to kingdom living in the life to come

what happens when we die will we simply dissolve into nothingness or will we survive death in some other form issues of death and dying have consumed humanity from time immemorial in our modern western culture we have tended out of fear to deny and push death away and yet a healthy consideration of this issue can help us embrace and understand what happens to us when we die there is life after death is tom harpur s classic examination of death and dying now fully revised and updated here is a new edition of a book that weighs the scientific religious and anecdotal evidence of survival of death and what happens after we die the likelihood of death being a portal to other forms of existence is argued persuasively tom harpur looks at the witness of near death experiences and examines the idea of reincarnation as well as the claims of channelers and spirit mediums most importantly the author looks at how the great world religions from christianity judaism and islam to hinduism buddhism and native spirituality among others deal with life after death this book is a powerful summary of what we know and believe about death there is life after death is both illuminating and comforting in its message and conclusions and goes a long way in putting to rest one of the last great taboos of our culture

you can get happier and getting there will be the adventure of your lifetime instant 1 new york times bestseller in build the life you want arthur c brooks and oprah winfrey invite you to begin a journey toward greater happiness no matter how challenging your circumstances drawing on cutting edge science and their years of helping people translate ideas into action they show you how to improve your life right now instead of waiting for the outside world to change with insight compassion and hope brooks and winfrey reveal how the tools of emotional self management can

change your life immediately they recommend practical research based practices to build the four pillars of happiness family friendship work and faith and along the way they share hard earned wisdom from their own lives and careers as well as the witness of regular people whose lives are joyful despite setbacks and hardship equipped with the tools of emotional self management and ready to build your four pillars you can take control of your present and future rather than hoping and waiting for your circumstances to improve build the life you want is your blueprint for a better life

in kevin macdonald s metaphysical failure jonas e alexis offers a thoroughly researched nuanced and lucid analysis of kevin macdonald s thought in particular macdonald s belief in biological and philosophical darwinism it is an important book that fills a critical gap in the literature on the history of revolutionary movements and darwinism both in the west and in asia it is also a study that adds many significant strands to the densely interwoven history of ideas such as malthusianism and eugenics alexis s book engages debates in the history of ideas going back to madison grant and beyond and the history of darwinism it challenges many of the life long prevailing assumptions about identity politics and produces a powerful critique of how scientific theories have been misused to uphold misguided and faulty categorizations powerfully reasoned and backed with a startling array of documented studies kevin macdonald s metaphysical failure presents an in depth look at key beliefs behind many mistaken and consequently destructive actions taken by numerous writers and thinkers particularly darwin s ardent enthusiasts and devoted disciples the book presents eye opening insights into the historical development of darwin s ideological project and how that project ended up crippling darwin s intellectual children from richard dawkins francis crick james watson daniel dennett ernst mayr and e o wilson to kevin macdonald richard spencer david duke and jared taylor

are humans composed of a material body and an immaterial soul this view is commonly held by christians yet it has been undermined by recent developments in neuroscience how much of christian theology is built on views of humanity that modern science has proved to be untenable exploring what scripture and theology teach about issues such as being in the divine image the importance of community sin free will salvation and the afterlife joel green argues that a dualistic view of the human person is inconsistent with both science and scripture publisher description cf oclc

in brain wars acclaimed neuroscientist mario beauregard reveals compelling new evidence set to provoke a major shift in our understanding of the mind body debate research showing that the mind and consciousness are transmitted and filtered through the brain but are not generated by it following his boundary breaking neuroscience book the spiritual brain a neuroscientist s case for the existence of the soul coauthored with denyse o leary brain wars makes a powerful and provocative case against the widely held view equating human beings to complex biological computers like jeffrey m schwartz beauregard believes that consciousness is more than simply a physical process that takes place in the brain and here he presents the evidence to prove it brain wars will revolutionize the way we think about thinking forever

consider a world in which marketers use brain scans to determine consumer interest in a product politicians use brain image based profiles to target voters a test could determine your suitability

for a job or to whom you will be romantically attracted far from science fiction this neurosociety a society in which brain science influences every aspect of daily life is already here innovative researchers and cutting edge technology like brain imaging and brain scanning devices have revolutionized our understanding of how we process information communicate trust sympathize and love however scientists and doctors are not the only ones interested in the naked brain advertisers politicians economists and others are using the latest findings on the human brain to reshape our lives from the bedroom to the boardroom despite the potential benefits there s obvious peril in the promise richard restak explores the troubling moral and legal dilemmas that arise from corporate and political applications of this new brain research someday we may live in a world where our choices our professional and personal prospects even our morals and ethics will be controlled by those armed with an elite understanding of the principles of neuroscience eye opening and provocative the naked brain is a startling look at the impact such unprecedented access to our most secret thoughts and tendencies will have on all of us in the naked brain bestselling author richard restak explores how the latest technology and research have exposed the brain and how we think feel remember and socialize in unprecedented and often surprising ways now that knowledge is being used by doctors advertisers politicians and others to influence and revolutionize nearly every aspect of our daily lives restak is our guide to this neurosociety a brave new world in which brain science influences our present and will even more tangibly shape our future citing social trends shifts in popular culture the rise and fall of products in the public favor even changes in the american vernacular the naked brain is an illuminating and often troubling investigation of the impending opportunities and dangers being created by the neuroscience revolution and a revelation for anyone who ever wondered why they prefer coke over pepsi or kerry over bush

drawing on hundreds of case studies a look at the psychology of major midlife u turns examines the life transforming phenomenon from a philosophical literary scientific and psychological perspective to explain why it occurs
